

**Joint Statement of Intent
for
Integrated Industrial/Educational Development
in Guguletu Township between
USDOE, USDOE National Laboratories, and the Guguletu RDP Forum**

Whereas, the Guguletu RDP Forum recognizes that sustainable economic development requires that both industrial and educational users be addressed

Whereas, the Guguletu Township has completed a development plan for year 2000 which emphasizes light industry and training.

Whereas, the Department of Energy and its national laboratories recognize that renewable energy and efficiency, will play a prominent role in the future of South Africa and will assist the Guguletu achieve its plans.

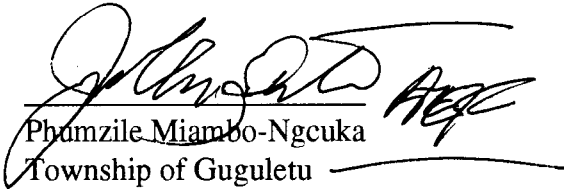

The participants agree to undertake a project which will address, but not necessarily be limited to the following:

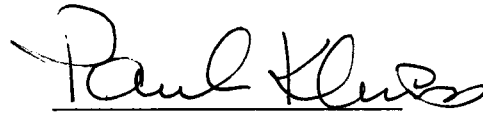

- The establishment of a light industrial park in Guguletu
- The choice of type and size of the industries which will be part of the industrial park. The study will prioritize industries according to:
 - Goals of the RDP
 - Number of jobs created
 - Synergizing with other developing majority business efforts
 - Long-term markets
 - Energy efficient processing
 - Environmentally friendly products
- The modification of the Sivuyile Technical college curriculum to:
 - Provide skills necessary to serve industries populating the new industrial park and other growing employment markets in South Africa

- Create synergistic training/employment opportunities in the industrial park for college students. These may take the form of internships, work study cooperatives, etc.
- Allow college graduates to matriculate at South African Technikons
- Use the knowledge resident in appropriate US educational institutions

All of the above shall be consistent with and support current Guguletu 5-year plan "From Township to Suburb by 2000".

By December 1995 a conceptual design for the industrial park and training program outline will be complete and presented to the Binational Commission with recommendations for attracting investment.

Phumzile Mlambo-Ngcuka
Township of Guguletu
